Harry,

Reid brought it up to my attention that you indicated to him several times that I had not provided you with technical direction/comments to this document. The last time that you and I spoke, you were referring to a request for additional labor hours to complete task 2-04. The attachment to this document were my last comments to you. What other technical direction on this document was Reid referring to? I had to cut my vacation short to respond to this request.

Harry,

I reviewed Section 6 (Economic Analysis and it looked impressive. I provided you with a few comments that should not be hard to handle. Please let me know if you have any questions.

Val

Reid,

It came through just fine. Thanks for your quick reaction on the document. I have been through it and I understand all of your comments. I'm having them all edited into the final report. Your comment about splitting out the eastern and western sites, I'll have Steve work that out to your satisfaction. Val indicated he was going through any remaining comments on Section 6 and conferring with Tom and Dan. He promised his final responses by COB on Tuesday. If all works out we should be in position to issue the formal final report to EPA by next Friday as promised.

Harry

All

Can you please confirm you got the email I sent with the BID? My server tells me it was too large, but its in my Sent box. Thanks

Reid
